

NEW MEXICO WATER CONFERENCE

March 30 - 31, 1967

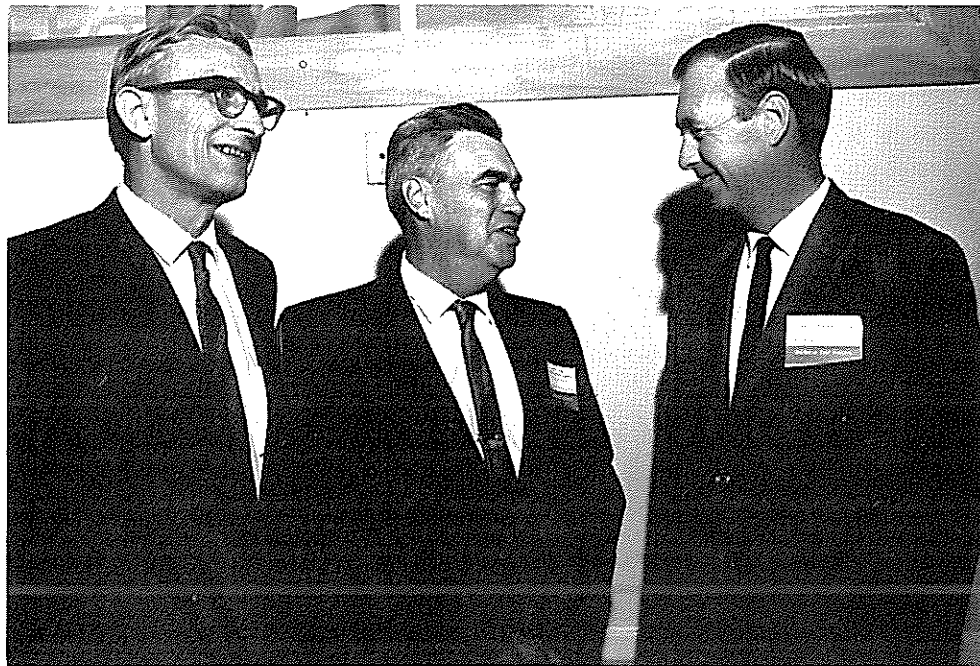

THEME OF THE CONFERENCE - WATER QUALITY--HOW DOES IT AFFECT YOU?

	<u>Page Number</u>
FOREWORD -----	1
SUBJECTS AND DATES OF CONFERENCE PROCEEDINGS -----	2
PROGRAM -----	5
PAPERS PRESENTED	
<u>The Development of Water Quality Standards</u> ----- James L. Agee, Director, Water Quality Standards Staff, Water Pollution Control Administration, USDI	9
<u>Consequences to New Mexico of Water Quality Standards on Interstate Streams</u> ----- John W. Hernandez, Civil Engineer New Mexico State University	13
<u>New Mexico's Interest in Water</u> ----- Honorable David F. Cargo Governor of New Mexico	18
<u>Stream Pollution and Measurement</u> ----- J. W. Clark, Professor of Civil Engineering New Mexico State University	23
<u>Water Requirements for Crop Production with Saline Waters and Saline Soils</u> ----- D. E. Longenecker Texas Agricultural Experiment Station	32
<u>A Comparison of Minor Trace Contaminants in Atmospheric Precipitation and in Water Supplies</u> ----- A. L. Lazrus, Laboratory of Atmospheric Sciences National Center for Atmospheric Research	39
<u>Career Opportunities in the Water Resources Field</u>  Lloyd Calhoun, Vice President New Mexico Electric Service	44

	<u>Page Number</u>
Frank O. Elliott, President New Mexico Oil and Gas Association	48
Francis C. Koopman, Hydrologist Water Resources Division, U.S. Geological Survey	49
Conrad G. Keyes, Assistant Professor Civil Engineering, NMSU	51
 <u>Career Opportunities in the Water Research Field</u>	
E. D. Eaton, Associate Director Office of Water Resources Research, USDI	53
P. J. Leyendecker Director, Agricultural Experiment Station, NMSU	56
C. E. Jacob Coordinator of Research, NMIIT	59
Frank B. Titus Graduate Student, University of New Mexico	60
<u>Water Quality Relationships in Irrigation Development</u> ----	62
Harris R. McDonald, Chief Water Utilization Branch U.S. Bureau of Reclamation	
<u>Sediment and Its Effect on Water Quality</u> -----	75
Elliott M. Flaxman, Sedimentation Specialist Soil Conservation Service	
<u>Water Quality Relationships for Urban and Industrial Uses-</u>	83
Haskell R. Street, Manager El Paso Water Utilities	
<u>Water Quality Requirements and Relationships for Recrea-</u> <u>tional Use</u> -----	95
Maurice D. Arnold, Regional Director Bureau of Outdoor Recreation	
<u>Recent Water Legislation - 1967</u> -----	103
F. Harlan Flint, General Counsel State Engineer and Interstate Stream Commission	104
Hoyt Pattison, Curry County State Representative Farm Operator, Farm Manager, and Professional Engineer	113

State Representative Hoyt Pattison, Curry County; Willis Ellis, Professor of Law, University of New Mexico; and John Gregg, Elephant Butte Irrigation District, Las Cruces (left to right), discuss the problems of water law and water management. Mr. Pattison and Professor Ellis were speakers during the special sessions - Recent Water Legislation.

Three of the speakers in the special sessions on Recent Water Legislation were (left to right) State Engineer Steve Reynolds; Senator James Kirkpatrick, Dona Ana County; and Harlan Flint, Special Assistant Attorney General.

Dr. Donald E. Longenecker  
Texas Agricultural Experiment  
Station, Isleta, Texas

Dr. Allen Lazrus  
National Center for Atmospheric  
Research, Boulder, Colorado

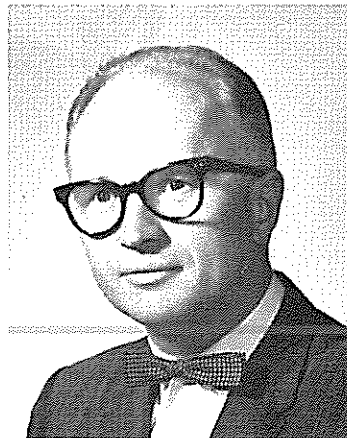

Elliott M. Flaxman  
Soil Conservation Service  
Portland, Oregon

Dr. Conrad Keyes  
Civil Engineer  
New Mexico State University

Haskell Street  
El Paso Water Utilities  
El Paso, Texas

C. E. Jacob  
New Mexico Institute of Mining  
and Technology, Socorro, NM
