

Electrical Troubleshooting Part 1: Diagnosing Field Wiring Problems

Basic/Beginner, Landscape

Tuesday, November 6, 1 pm-5pm

- 4 IA CEUs
- Learn how to properly use volt-ohm meters and how to diagnose wiring problems based on their readings.
- Diagnose field wiring problems without leaving the controller.
- Learn the most effective steps to sort out confusing electrical problems, so you'll rarely need to run new wire.
- Recommended prerequisites include: basic understanding of sprinkler system mechanical operation and maintenance. An excellent prep class is *Irrigation System Installation and Maintenance*.
- Course includes ½ day of instruction, handbook and handouts.
